Our INTENT

*To recognise children's prior learning,
provide first hand learning experiences,
allow the children to develop
interpersonal skills, build resilience and
become creative, critical thinkers.*

Our school values are embedded into our curriculum and children apply these in everything they do. We strive to ensure that our curriculum is diverse, global and inclusive and prepares the children for life in the wider world

Our IMPLEMENTATION

Our learning is underpinned by the teaching of basic skills, knowledge, concepts and values. We constantly provide enhancement opportunities to engage learning. We believe that our learning should be happy, investigative and enquiring where there are no limits to curiosity and there is a thirst for new experiences and knowledge. Our curriculum allows for the accumulation of knowledge and skills, for the children to build on what they know and embed knowledge to make it stick!

Our IMPACT

Our curriculum places the learners at the centre and allows them to make connections in their knowledge, skills and understanding that are vital across all subjects.

Children are confident and active learners who are able to question and reason. They enjoy their learning and our work on promoting our school values, citizenship and well-being enables the children to become the very best version of themselves.
