

Year 4 Homework

The year 4 team would like to say a big thank you for all the support that you have given us and the children this year with homework. This homework is to support the transition from year 4 to year 5.

Maths

The children have worked hard this year to learn their multiplication tables but they are so vital especially as the children will need to be proficient in dividing up to four digit numbers next year, so it would be good if the children could keep practicing these.

English

The children have been learning the year 3 and 4 spelling list over the last two years however there is a new list for year 5 and 6, it would be great for the children to start learning some of these spelling, their meaning and practice putting them in sentence. I have attached a separate file with these words on it.

Topic

The first topic in year 5 will be Anglo-Saxons and Viking so please look up some information about them. You could do a report, leaflet, poster or make 3d model.

Fun

Please make sure you get a good rest it has been a very long year this year. I have also attached a separate file which is called the activity passport with some ideas for things to do over the summer.
