

How can you support your child at home?

- Hear your child read or discuss what they are reading
- Encourage them to practise their weekly spellings
- Encourage them to use their mental maths to add, subtract, multiply and divide numbers in everyday life, for example there are 7 weeks left of term – how many days at school is that?
- Ensure your child is confident at telling the time. If they are, can they calculate with time? How long until...?
- Support them with their homework projects – we don't mind if it is a team effort
- Ask your child about their learning – can they explain something they have learned to you?

50 things to do before you're 11¾

As the weather brightens up, and lockdown restrictions begin easing, now is a great time to get outside as a family. Get your children closer to nature with '50 things to do before you're 11¾'. There's plenty of outdoor activities to do all year round, from watching the sunset to creating some wild art. Many can be done at home and in your garden.

Homework in Year 5

Homework is an essential part of learning since it allows pupils to practise what they have learned at school. Children will be set a comprehension task and given spellings every Friday. Children will also be set a weekly Maths challenge as well as tasks linked to our foundation subjects. Please encourage your child to complete their work and bring it in to school. Please encourage your child to read everyday.

“We are not what we know but what we are willing to learn.”

Mary Catherine Bateson
